

Product Data Sheet: Membrane Attachment Ring-2

Provides additional attachment of mechanically attached or fully adhered TPO, PVC, and KEE Single Ply Membranes

Product Description:

The **Membrane Attachment Ring-2** provides additional attachment of a mechanically attached or fully adhered roof assembly, limiting movement of the membrane under extreme wind loads. The ring provides wind uplift results independent of the roof assembly, which may enhance the wind uplift performance of some assemblies. The Membrane Attachment Ring-2 may also be specified on fully adhered membranes.

Advantages:

- * Installs quickly
- * Installs on both flat and vertical surfaces
- * Provides a uniform wind uplift on all thermoplastic roof assemblies

Packaging:

Units sold individually

Full box quantities: 10 units

Attachment:

The Membrane Attachment Ring-2 is secured over the roof membrane using up to 7 approved fasteners. The U-Anchor 2000 is then positioned over the Membrane Attachment Ring-2 and hot air welded around the inside diameter of the ring and again around the outside perimeter of the U-Anchor 2000 target. In accordance with membrane manufacturer instructions.

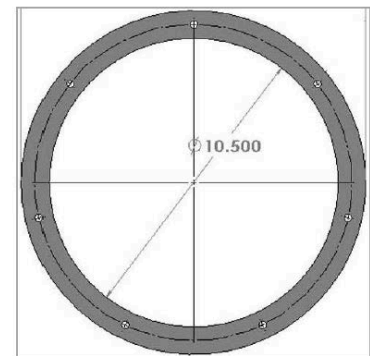

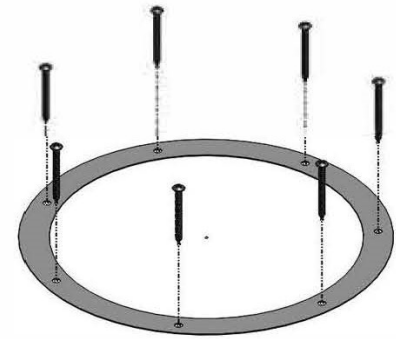

Testing, Approvals and Listings:

The Membrane Attachment Ring-2 was tested in accordance with ASCE 7-05 ASTM E330-2 (2010) TAS 117B. Test Reports can be requested on-line or through your distributor.

Warranty:

10 year standard material warranty

Up to 20 year material warranty available
