

10"(5 Slots)

8"(4 Slots)

Description

Coated Channel Strut can be used for framing and mounting and for constructing load centers and vertical pipe supports. With a galvanized finish and a half-slot construction, the channel can also be used to create a trapeze for conduit and mechanical piping and to support duct and cable trays. The pre-cut pieces are coated for a clean / low-profile look.

Features and Benefits

- Use to hang conduit and other supports from ceilings
- 12-Gauge metal construction with half-slot holes
- Clean finish has a paint-able surface
