

Overview

Recent updates in building codes are making the age-old method of using cinder blocks to secure commercial rooftop satellite systems obsolete.

AP Solution CMK 0500 Satellite Securement System provides you with a stable and secure option for your system that meets ASCE-7 regulations for your commercial roof.

Anchor Products utilizes the U-Anchor 2000 or 3000 Series Attachments to securely attach your satellite system, without voiding your roof warranty. This solution provides a secured base with the help of the U-Anchor. The satellite system stands firm against seismic events and high winds, utilizing the strength provided by the U-Anchor.

Our systems are tested and approved by respected third party engineers. The U-Anchor is accepted by all major North American roofing manufacturers.

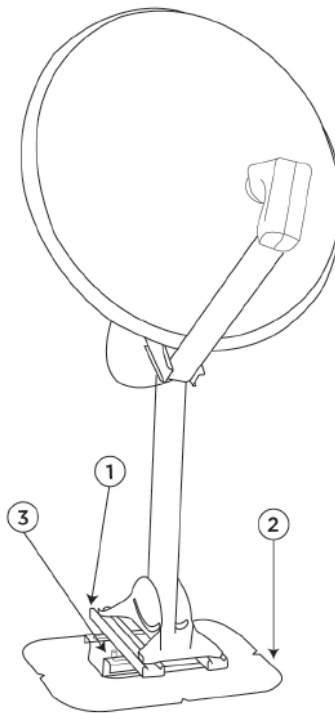

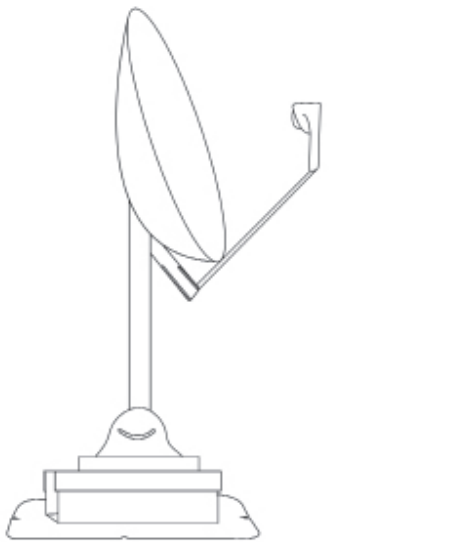

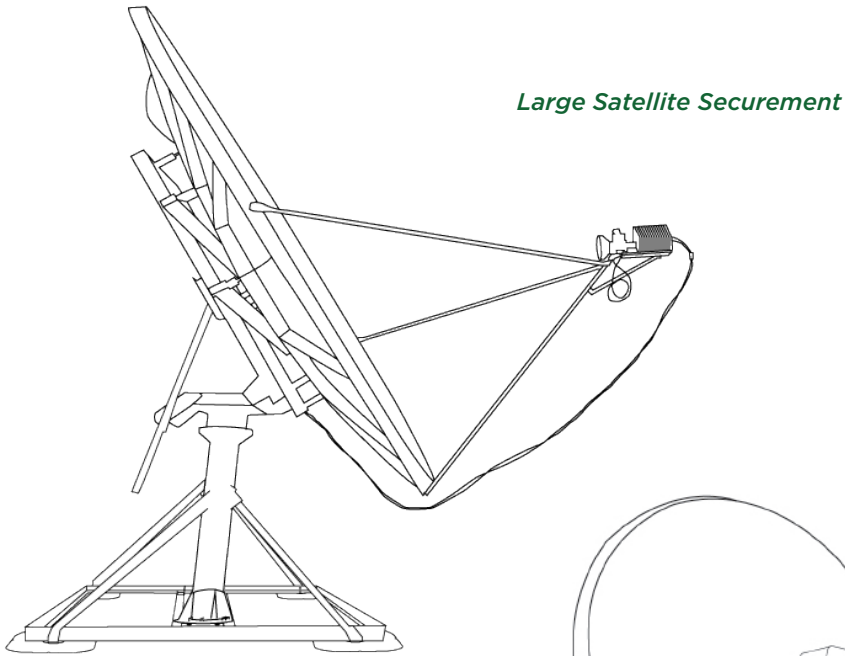

ASCE 7-16 code requires all rooftop equipment to be bolted, welded, or otherwise positively fastened without consideration of frictional resistance.

Features:

- U-Anchor provides extreme strength for resistance against high winds and seismic events
- Efficient usage of space and versatile placement options
- U-Anchors matches all commercial roofing materials and brands
- U-Anchor Safely attaches to EPDM, TPO, PVC, asphalt and coated roofs without damaging roof surfaces
- Each U-Anchor 2000 Series Attachment can resist approximately 3000 lbs. in tension and 4000 lbs. in shear
- Satellite Bracket Made of 1/8" Galvanized Steel

Each U-Anchor 2000 Series Attachment Can Resist Approximately 3000 lbs. In Tension And 4000 lbs. In Shear

Small Dish Securement

SATELLITE SECUREMENT SYSTEM INCLUDES:

Small Dish:

- 1- Satellite Mounting Bracket
- 2- U-Anchor 3000 Series
- 3- Hardware

Large Satellites:

- 1- U-Anchor 2000 Series
- 2- Base Frame
(not included in system)
- 3- Hardware

ADVANTAGES

Satellite Securement System matches roofing material and brand to keep roof warranty intact.

Better system stability allows for a more consistent signal.

Versatility to place the system in optimal position.

U-Anchor attachment is compatible with all major commercial roof brands and most satellite system bases.
