

WSK 0520

WEATHER STATION SECUREMENT

The AP Solution **WSK 0520 Weather Station** securement by Anchor Products is your solution to successfully installing and maintaining the stability of your commercial weather station system. Our system uses the U-Anchor™ 2000 Series

The U-Anchor allows for the weather station system to be efficiently mounted at the appropriate height above the surface of your roof. Its versatility can ensure that you can easily find the proper spot to prevent obstruction.

Every weather station system is specifically designed for your location and roof. Our system has gone through third party testing by respected engineers and is accepted by all major North-American roofing manufacturers.

ROOFTOP ACCESSORIES SECUREMENT

ASCE 7-16 code requires all rooftop equipment to be bolted, welded, or otherwise positively fastened without consideration of frictional resistance.

FEATURES:

- » All U-anchors match roofing material type and brand.
- » U-Anchor safely attaches to EPDM, TPO, PVC, asphalt and coated roofs without damaging the roof surface.
- » U-Anchor is compatible with any roofing weather system manufacturers base and mast.
- » Easily installed year-round.
- » Each U-Anchor 2000 Series Attachment can resist approximately 2,500 lbs. in tension and 4,300 lbs. in shear.
- » More options:
 - Wall mounted system available
 - Custom colors available

ADVANTAGES

- » U-Anchors provides exceptional strength and are tested for load capacity.
- » Maintains a clean look and can be easily integrated with other systems.
- » Installation is efficient and easy.
- » Proper installation of our system will not void the warranty of your commercial roof.
