Description

The U3400-TPO is a lightweight rooftop attachment system consisting of an U-Anchor 3000 Series plate, flashing cover and separator membrane. The cover and separator membrane are factory sealed to the top of the plate. The U3400-TPO provides a fastened, watertight, warranted attachment for TPO fully adhered single-ply membranes.

Advantages

- Extremely strong and lightweight.
- Fast installation, approximate rate of 12 per man hour.
- Installs on any surface from flat to vertical.

U-Anchor Attachment

The U3400-TPO is attached by lifting the flashing to expose the fastening holes on the plate. Then, fastening through the roofing assembly and into the structural decking with 2-12 approved fasteners, as directed by project specific engineering. The membrane cover is then hot air welded around the perimeter to the roof membrane. After verifying the seam integrity with a probe, seam sealer maybe required per roofing manufacturer's specifications.

Project-specific data is required to determine the correct type of fastener and number needed to secure each U-Anchor. An ANSI/SPRI FX-1 Pull Test is recommended to measure the pull-out resistance of fasteners included in the load path, (for example, substrate -> fasteners -> the U-Anchor -> other components.)

Equipment Attachment

To securely mount your rooftop equipment to the U-Anchor, after its installed, the connection nut must be tightened to approximately 20-25 ft.-lbs.

Use a calibrated torque wrench during install to ensure appropriate results are achieved.

Refer to product documentation for detailed installation and component requirements.

Testing

Results are based on plate performance only.

- Ultimate Load - Shear **X**: 9,597 lbs
- Ultimate Load - Shear **Y**: 9,638 lbs
- Ultimate Load - Tension: 4,997 lbs

Tested in accordance with ICC AC467

Individual roof deck assembly tests available upon request as application specific results may vary.

Warranty

- 20 Year Limited Material Only Warranty.
Subject to terms and conditions.

Product Specifications

Bolts

- 3/8"-16 x 1.5" Bolt*
- Material Type: 304 Stainless Steel

Plate

- Dimensions: 11.08" x 5.47"
- Fastener Hole Diameter: 0.265" (12 holes)
- Steel Thickness: 0.047" (1.194mm)
- Material Type: Galvanized Steel G90

Cover Membrane

- Manufacturer: Brand or Non-Brand Specific*
- Color: Default White*
- Length: 17.5"
- Width: 11.75"
- Thickness: Default 60 mil*

Patents

Packaging Specifications

- Sold Individually OR Full Box Quantity
- Individual Weight: Approx. 1.4 lb
- Full Box Quantity: 10 units
- Box Weight: Approx. 18 lbs
- Box Dimensions: 19" x 14" x 14"
- Full Pallet Quantity: 30 boxes
- Pallet Dimensions: 48" x 40" x 62"

* Specified option is standard. Custom options may be available for additional charge. Lead times may apply depending on roofing manufacturer and product availability.
