

The AP Solution **SMS 0800 Signage Mounting** securement is your way to ensure that your commercial rooftop signage is mounted securely, with the help of the U-Anchor 2000 Series attachment.

Commercial roof top signage can serve an integral part of your marketing strategy. The difficulty of deciding on design and placement is enough stress without having to worry about the roof and the various engineering requirements and regulations that need to be followed as well.

Each U-Anchor 2000 Series attachment can resist approx. 3000 lbs. in tension and 4000 lbs. in shear. There's no sign too big or small for the U-Anchor attachment.

ROOFTOP ACCESSORIES SECUREMENT

ASCE 7-16 code requires all rooftop equipment to be bolted, welded, or otherwise positively fastened without consideration of frictional resistance.

FEATURES:

- » All U-anchors used match roofing material type and brand.
- » Corrosion resistant Stainless-steel brackets and hardware.
- » All exposed components and hardware are stainless steel, aluminum, or other non-corrosive materials.
- » Customizable solution for your signage needs.
- » Safely attach your sign to TPO, PVC, EPDM, Asphalt and coated roofs without damaging the roof.

ADVANTAGES

- » System able to withstand high winds and seismic events with the help of the U-Anchor.
- » Stainless steel and Aluminum 6061 T6 components resist corrosion.
- » Customizable system with the material, size and brand that you need.
- » Versatility of U-Anchor attachment provides more options for placement on your rooftop.
