

SRS 0100

UNITIZED SNOW FENCE SECUREMENT

The AP Solution **SRS 0100 Unitized Snow Fence** securement is a snow retention system that is attached to TPO, PVC, EPDM, or a coated roof using the U-Anchor™ 3000-S Series Attachment. This solution provides a stout securement and superior strength to out perform other conventional systems on the market. The SRS 0100 includes the AP Unitized Snow Bracket™, plus all the hardware to attach to the U-Anchors. The system manages snow migration on the roof, allowing for the proper evacuation of snow off the roof in a controlled manner.

PRODUCT SPECIFICATIONS

Unitized Bracket Material

- Dimensions: 14" L x 3" W x 2" H
- Material Type: Stainless Steel
- Thickness: 3/16"
- Color: Mill Finish Stainless Steel*
- Quantity: 10 per box

Accessories

- Flanged Nut
 - Threading: 3/8"-16
 - Material Type: 304 Stainless Steel
- Flat Washer
 - Material Type: 304 Stainless Steel

Packaging

- Box Dimensions: 19" L x 14" W x 14" H
- Individual Weight: Approximately 40lbs.

Permanent, lightweight snow retention providing superior waterproofing and resistance without the use of compression seals.

The U-Anchor 3000-S incorporated with the system installs in less than 5 minutes while the snow retention bracket installs in less than one minute reducing labor expenses and delivering low installed cost.

The SRS 0100 bracket is manufactured of stainless steel plate and boasts superior loads allowing for increased spacing of brackets, further reducing costs.

Snow retention brackets eliminates the need for snow flags / restrictor plates that are required with some snow fence.

All representations herein are premised on proper installation and use of approved components. Failure to properly install or use of unapproved components voids all Anchor Products representations.
